

Below is the schedule of webinars set for 2016. Webinars are scheduled for the third Tuesday of the month, from 1:00-2:00pm CST. We will attempt to keep the same dates, but topics may evolve and/or be revised as we work with our speakers. You will receive call-in/connection information for each webinar a week or two in advance. Closed captioning will again be provided and each webinar will also be recorded to be shared to the entire mailing list afterwards.
